The farm inventory, or property list, offers the only practicable way of answering these questions. Once the farmer has made a complete list of all his assets and liabilities and has bal- ought to have some bulky feed. Prof. anced them he knows just what his J. H. Sheperd of the North Dakota Agnet worth is, and when he has made ricultural college reports that the such a list annually he knows each herdsman at the agricultural college year whether he has gone forward or feeds a pound to a pound and a quar-

of his business. Detailed Instructions. The United States Department of Agriculture has just issued Farmers' Bulletin 1128, entitled "Farm Inventories," in which are given detailed instructions for making an inventory of farm property and revising such a list from year to year. By using the single system described in this bulletin any farmer can determine exactly his financial status and lay the foundation for a permanent system of accounting. Without the farm inventory as a basis no system of accounting that might be chosen would be of any great use

FANNING MILL VERY USEFUL Present High Price of Grain Should Bring Machine Into More Use

Besides, the chickens lose the screenings. The present high price of grain should bring many a neglected fanning mill into profitable use. Incidentally, farmers will and much cheap feed for chickens, pigs and other animals.

Where Farmer Is Properly Equipped He Can Raise Young Animals Without Difficulty.

More fall pigs are being raised nowadays than was the case a few years ago. This is due largely to the fact that grain is relatively high-priced. When a man is properly equipped for taking care of fall pigs through the winter season he can raise them about as cheaply as he can spring pigs and he gets more out of his sow by breeding her twice a year than only onco. It is not difficult to winter fall pigs if one gives the matter proper atten-

Every Inch of the Bates Steel Mule is Thoroughbred MARKETS

The United States Government by means of the Depart. ment of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner-men who say that the tractor has paid-are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quality production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There isn't a part that isn't time-tried and tested. There isn't a part that experience hasn't dictated the shape and size of; and in it all there isn't one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted. The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you cannot afford to pack your beyond is always seen as the issue of sylvania and nearby, 100 pounds, \$1.75 seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offered in any ments a great many fabrics are ap- as the great example (Heb. 12:2). do, yellow, York River, barrel, \$4@ tractor on the American market today.

New French Ministry Presents Its Program to Parliament

SECURITY A SACRED DUTY

Will Use Force If It Is Necessary-Premier Is Certain His Policy Will Be Supported By

Paris .- Premier Aristide Briand presented the program of his Ministry to the Chamber of Deputies and the Senate. The Ministerial declaration was heard with intense interest and was interrupted frequently with cheers. The program contains the following outstanding points: Germany must disarm and pay

Peace with Turkey must be

the reparations due from her. France has the force to compel respect for engagements taken with her and would be able to use WAS ILL FROM INF it, if necessary, but it is in peace she wishes to bring Germany to fulfill her obligations.

made effective, account being taken of new circumstances. France will not intervene in the internal affairs of Russia, but cannot admit that the soviet armies shall cross the Russian frontiers to attack the allies of France. "We have a treaty of peace with out when his wife, Mrs. N Germany," the declaration read, "but probably demented from a we have not real peace as yet-a of influenza, shot and kille peace which will solidly establish her four children and then France's essential rights and assure The dead children are her security.
